FANTASY HEROINE CHARACTER PACK

Fight
Escape

Harold	HP	450	MP	90	TP	9
Therese	HP	450	MP	90	TP	5
Marsha	HP	450	MP	90	TP	17
Lucius	HP	450	MP	90	TP	8

Super cute and varied character designs. The artwork is very nice and works well with the RTP characters as well as the Cover Art pack. I did find a slight pixel error with one of the walking sprites but that was a .2 second fix in photoshop.. It'd be nice if they got some fainted character sprites for some scenes, but apart from that, it's pretty good.. It's basically x8 cat-girls as characters, as enemies, and some busts if you use busts. It's a lot of money for some art, but the art is good and it's what I wanted as I am going to use them as unique bosses for my game.

It's all in how you see value if this is going to be something you want or not, for me it works so I am happy. I do wish these packs came with supportive extra enemies, some audio or something, but this pack does not, just so you know if you were hoping for some.. The only reason I purchased this was it was included in a discounted bundle during the 2017 winter sale. Has a lot of well designed and cute female characters I probably will never use unless I am making a game with female-only heroines.
